Warrant for Annual Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton on Tuesday, the 9th day of March next, at nine o'clock in the forenoon to one o'clock in the afternoon, to act upon the following subjects:

1. To choose all necessary town officers.
2. To hear the reports of town officers, agents and committees and pass any vote relating thereto.
3. To see if the town will grant free use of the town hall for the following purposes: Roy Bent Post No. 10 American Legion, Wilton Fire Department for their annual party, Roy Bent Post No. 10 American Legion for Memorial Day exercises.
4. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
5. To see what action the town will take in regard to real estate taken over by the town for non-payment of taxes.
6. To see if the town will vote to accept the budget as prepared by the budget committee or make any alterations relating thereto.
7. To see if the town will vote to raise and appropriate the sum of \$500.00 for Civilian Defense.
8. To see if the town will grant the free use of the Banquet Hall for the Parent-Teacher Association.

9. To see if the town will raise and appropriate the sum of \$300.00 to purchase chairs for the town hall.

10. To see what action, if any, the town will take relative to the purchase of land for town dump purposes.

11. To see if the town will vote to rescind the action taken on March 10, 1908, whereby the Australian Ballot System was adopted governing the election of town officers and adopt in lieu thereof the non-partisan system as provided in sections 112 to 120 thereof in a like manner in accordance with Chapter 34 of the Revised Laws as amended by laws of 1943.

12. To see if the town will vote to raise and appropriate the sum of \$198.00 to the Monadnock Region Association of Southern New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the town in cooperation with the other thirty-seven towns of the Monadnock Region.

13. To see if the town will vote to raise and appropriate the sum of \$50.00 for the use of the Town Planning Board or take any action relating thereto.

14. To see what sum of money the town will vote to raise and appropriate to defray town charges for the ensuing year, including town officers' salaries and expenses, election and registration, town hall, police department, fire department, health department, vital statistics, sewer maintenance, town road aid, town maintenance, parks and playgrounds, new equipment, street lighting, Municipal Court, town poor, old age assistance, aid to soldiers and their families, Memorial Day, cemeteries, interest, bonds, county taxes, Monad-

nock Region Association, libraries, town forest, bridges, civilian defense, new lands and buildings.

15. To transact any other business that may legally come before said meeting.

Given under our hand and seal this 20th day of February A. D. 1943.

WILLIAM M. ABBOTT,
WILLIAM P. WHITING,
LESLIE N. CENTER,
Selectmen of Wilton, N. H.

BUDGET

**Estimates of Revenue and Expenditures for the En-
suing Year, Feb. 1, 1943 to Jan. 31, 1944, Com-
pared with Actual Revenue and Expenditures

Report of Trustees of Trust Funds

Five new trust funds for care of cemetery lots were received during the year, making the total number of funds for that purpose 116.

Funds for care of cemetery lots total \$13,010.00, with accrued interest amounting to \$1553.88.

The income for the year was \$209.04 and the sum of \$181.29 was paid for care of lots.

During the year the sum of \$14,500.00 was invested in U. S. 2½ % War Bonds with balance of \$63.88 deposited in Savings Department of Wilton National Bank.

The receipts of the Howard and Spalding School Funds were paid to the Treasurer of the School District.

A list of Trust Funds showing receipts and expenditures appears elsewhere in this Report.

Respectfully submitted,

W. L. STANTON,

For the Trustees.

Report of Auditors

Selectmen, Town of Wilton:

We have completed our audit of the books of the various officers of the town for the year ending January 31, 1943 and find them in good order.

The records of the Trustees of the Trust Funds, Trustees of the Wilton Public Library, and Judge of the Municipal Court have all been checked and found correct.

We have gone over the records of the Water Commissioners for sales, receipts and uncollected balance as of January 31 and found them to be correct. Collections were properly turned over to the Treasurer regularly. Town Clerk's records on registrations of automobile and dog licenses have been checked and found correct and collections turned over to the Town Treasurer.

The warrants, receipts, and uncollected balance of the Tax Collectors have been checked and found to be correct.

The uncollected accounts of the Tax Collectors and the Town Water Commissioners have been verified by sending individual notices to each debtor.

The records and reports of the Selectmen and the Town Treasurer have been checked and found correct. All invoices paid were on file and properly vouched for.

As auditors of the town, we believe it is our duty to do more than simply audit the accuracy or inaccuracy of the accounts of its officers. We believe it is for us to point out any condition of which the voters and taxpayers should be aware. Consequently, we should like to call your attention to the condition of the Accounts Receivable in the Water Department.

We show below a breakdown of the Accounts

showing the amount owed and the number of customers in each group:

Owing From-To	Number of Customers	Total Owed
\$ 1.00-\$ 6.00	32	\$185.47
6.00- 12.00	21	220.26
15.00- 25.00	13	261.56
25.00- 50.00	16	579.85
50.00- 75.00	10	613.07
75.00- 100.00	1	98.01
100.00- 125.00	1	101.84
150.00- 175.00	1	173.56
*200.00- 225.00	1	217.03
Total		96 \$2450.65

*Commercial Account, charges for Nov. 1, 1942 only.

The last billing period was November 1, 1942. There are 33 customers who only owe for that period, a total of \$402.50. The balance of \$2048.15 must be considered overdue.

We believe that if proper arrangements are made with the customers, the greater part of this balance can be collected.

It is very evident that there has been a definite laxness in the collection of these accounts over the past years, as there are several accounts which owe for a number of years with little or no payment having been made.

We very much appreciate the cooperation of the Town Officers in presenting their records for audit so promptly and congratulate them on their appearance.

Yours truly,

JOHN T. HURLEY,

J. ELMER DRAPER,

February 22, 1943.

Auditors of the Town.

Wilton Journal

BOOKS DONATED BY

Mrs. Shirley Carr, David Van Alstyne, Miss Jeanette Gay, Miss Louise Fitz, Robert J. Thompson, Strafford Wentworth, Mrs. Charles Abbot, Mrs. C. F. Ryder, Alexander V. C. Phillips, Harold Cheever, Miss Dorothy Stockwell, Mrs. Beulah Emmet, Mr. and Mrs. Richard Whiting, in memory of David Van Alstyne, Mrs. Alfred du Pont, Harold Kaye.

MUSIC DEPARTMENT

Through the courtesy of Miss Mary Frye, the music library of her late sister, Miss Elizabeth Frye, is given to our library as a nucleus of a music department. Other friends have made contributions of sheet music. Through the cooperation of Miss Ethelyn Edwards and her pupils, a splendid start was made in preparing and arranging the music for circulation.

VICTORY BOOK CAMPAIGN

The drive netted 132 books sent on to a sorting center. The second drive is now under way.

WE ARE INDEBTED TO:

Miss Florence Rideout's class for a most interesting book, written, arranged and designed by the pupils.

Mrs. Olive Nason for a joyscope, which is a fas-

inating pastime and useful in the study of design.

Mrs. David Van Alstyne for roses through the flowering season and greens for winter decorations also.

Miss Doris Forbes' class loaned charming posters for the Christmas holidays.

These are trying times, and throughout the land the libraries desire, as never before, to serve the public.

Respectfully submitted,

MARY F. GAY,

Librarian.

Report of Water Commissioners

We have had the usual number of repairs and replacements. We have put in a new six-inch service on Dale Street for about 205 feet, which took the place of a two-inch pipe that had been in use for some time.

We had the usual goose-neck breaks, and put in six new services.

Water for the town was supplied from the two reservoirs during the year. The State Board of Health reports this water to be of good quality.

PETER J. DUGAN

Report of Municipal Court

WILTON, N. H.

During the fiscal year ending January 31, 1943 there were nineteen criminal cases. Very nearly half the total number of cases as compared with last year. Nine of the criminal cases involved local persons and ten out of town. The criminal cases consisted of seven Motor Vehicle violations, seven drunks, one assault, one arson, one Fish and Game violation, one liquor, one breaking and entering.

I hereby submit the usual

FINANCIAL REPORT

Total fines, fees, costs imposed and collected	\$233 00
Received from confiscated cider	5 00

Report of Vale End Cemetery Committee

For Year Ending February 1, 1943

During the past year the Vale End Cemetery Committee has carried on its work of maintaining this old cemetery for the Selectmen. As it appeared at the Town Meeting that the town wished to save as much as possible in cemetery upkeep we kept our expenses at the very minimum. We did no new construction whatsoever during the year.

This Cemetery Committee regrets the loss of their caretaker, Mr. Archibald Thompson, who died during the summer. Mr. Thompson took over the maintenance of this cemetery at the same time that this committee was formed, and it has been with great appreciation that we have been in contact with him and his work at the cemetery. The real interest that he had in his work at this old cemetery and his care in bringing it out of its almost abandoned condition was greatly appreciated by the Cemetery Committee, and we believe also, by those who have contact with the cemetery.

We were fortunate in obtaining Mr. Kenneth Pollock to take on the work that Mr. Thompson had been doing for us, and for the balance of the year after Mr. Thompson's death he took care of the cemetery for us.

We submit herewith, an expense account for the year 1942:

Archie Thompson	\$16 00	
Robert Keilig	16 00	
Mark Richardson	12 00	
Kenneth Pollock	23 50	
Robert Pollock	7 70	
	-----	\$75 20
Other expenses:		
Team of horses	\$2 00	

Quigley's Garage, gasoline	86	
Potter and Edwards	1 50	
Joe LaCasse, sharpening mower	1 00	
Electric Light Current (pump)	12 00	
	-----	17 36

		\$92 56

Money Received During Year:

Sale of lots, Mrs. Grace Young	\$31 00
Sale of lots, Luther M. Langdell	20 00
Money received from Henry Proctor family, held for completion of work when labor is available	15 00

	\$66 00

Respectfully submitted,

WHITNEY M. FRYE,
LUTHER M. LANGDELL,
WILLIAM G. ABBOTT.

Report of Forest Committee

Due to war time conditions, scarcity of labor and other conditions, no work was done on Town Forest lands during the year 1942 except a line between the Town's Eaton and Spaulding lot and the George G. Blanchard Estate lot was surveyed and spotted, the cost of the same being equally borne between the Town and the Blanchard Estate. This expense of \$7.00 was the only money spent by your committee out of its \$50.00 appropriation.

The Ellen Brown Homestead property which was turned over to this Committee on October 23, 1941 was conveyed by the Selectmen to Charles Brown by deed in January 1943, he having reimbursed the town for all delinquent taxes and interest due thereon.

Under present conditions it seems inadvisable to attempt any Town Forest work for the coming year and your committee recommends that only the sum of Fifty Dollars be raised and appropriated for Town Forest Committee to be used, if necessary, for any unforeseen work that might become necessary or advisable during the year.

Respectfully submitted,
JAMES E. BURKE,
PHILIP C. HEALD,
HAROLD D. CHEEVER

Report of Fire Department

During the past year we have had two bad fires. They were the fires at Jacob Renker's house and the Wilton Motors Company. Both of these fires had a considerable start before the alarm was given. The department did well to hold these fires in check and save surrounding property.

We had several still alarms and a number of chimney fires. We realize, due to the fuel shortage, that more soft woods and waste materials are being used. However, this calls for more care of your chimneys, and many improvements could be made in cleaning up waste materials which intensify the fire hazard in and about buildings.

This past year we have added a 500 gallon pump to our equipment, also 650 feet of hose and several new firemen's coats and boots which were necessary.

We have tried several sirens and whistles for fire protection and air raid alarms which did not prove as satisfactory as the ones we already had. At this time, due to the shortage of materials, we were unable to procure any others on trial. Therefore, this matter remains unfinished.

Respectfully submitted,
HARRY W. MONSON,
WILFRID S. PELLERIN,
WILFRID B. BERUBE,
Fire Commissioners.

Report of Forest Fire Warden

Due to the wet season we had only one small grass fire. This was started by the B. and M. Railroad at the Gregg lot and was easily taken care of. Calls from the District Chief Warden were also answered for fires at Francetown and New Boston.

The forest fire danger through the coming year is just as acute as it has been in the past few years. Care should be taken in starting fires. Brush piles and rubbish should be burned before the snow is gone in order to keep forest fires in check. Be sure that permits are obtained for all fires started after the snow is gone. Fires started without permits often cause loss of time and unnecessary miles of travel, especially in these times of gas rationing. These fires are seen from look-out stations and have to be checked and reported. The cost of same must be collected from person starting fire.

Respectfully submitted,
HARRY W. MONSON, Phone 3-5.

Wilfrid S. Pellerin, Phone 113-3

Wilfrid B. Berube, Phone 90-2

Arthur Keilig, Phone 2-13

Lawrence Paro

Charles Stearns, Phone 111-12

J. V. Tuttle, Phone 63-14

Report of Park and Playground Commission

During the past year the park was kept mowed, shrub plantings cared for, and the park kept in a neat condition until late in August when the funds appropriated (\$200) were exhausted. No further work being possible the grass was not kept down during the fall and work in the coming spring will be more difficult and will add to the cost. Your commissioners feel that to keep faith with the donors sufficient money should be appropriated to at least keep the grass mowed and the park in a reasonable tidy and neat condition. We recommend as we did last year an appropriation of \$400 for the coming year.

One of our Commissioners is now serving in the U. S. Navy. The remaining Commissioners and we know the entire community wishes him God speed and a safe return.

Respectfully submitted,

J. ELMER DRAPER,

HAROLD D. CHEEVER.

Wilton, N. H., January 30, 1943.

Report of Planning Board

The vital problem of zoning has been discussed, but we are not ready, at this time, to make definite recommendations.

We are favorably inclined to a plan whereby some portion of the new section of land in Laurel Hill cemetery be reserved for perpetual care.

Recent disastrous fires give emphasis to the need of corrective measures that should be taken to insure the maximum safety to both persons and property as might be caused by fires within our town.

Mr. Isaac Whiting called our attention to the inaccuracies in the names of bridges and streams on the town map. This criticism was appreciated, and after discussion the motion carried to present the problem to the Historical Society for solution, their findings to be presented to the town for approval in correcting the town map.

The all-day parking problem is still present, with various solutions discussed.

The Boston and Maine has been approached relative to the possibility of the town purchasing or leasing the land between the passenger and freight depot, to be used as a public parking space.

Long range planning could not omit the desirability of the town's purchasing the passenger depot with the idea of restricting commercial enterprise and making use in the future of the building for Police and Fire Department headquarters.

Respectfully submitted,

WILLIAM P. WHITING,

Chairman, '44,

JAMES D. ABBOTT, '43,

Warrant for Annual School Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Wilton, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 13th day of March 1943, at 2.30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see if the district will vote to raise and appropriate the sum of \$650 for the purpose of continuing the present music program.

10. To see if the district will vote to raise and appropriate the sum of \$750 to provide for the teaching of commercial subjects.

11. To see if the district will vote to raise and appropriate the sum of \$750 to provide for a physical education program.

12. To see if the district will vote to raise and appropriate the sum of \$250 to carry on the school lunch program.

13. To see if the district will vote to raise and appropriate the sum of \$150 to provide an instructor for ten weeks summer program of canning for the school lunch.

14. To see if the district will vote to raise and appropriate the sum of \$250 to provide \$25,000 additional insurance on the main school building.

Given under our hands at said Wilton this 24th day of February 1943.

WHITNEY M. FRYE,
JAMES D. ABBOTT,
ELIZABETH M. PIERCE,
School Board.

BUDGET—1943-1944

Estimate of proposed expenditures in the School District of Wilton for the fiscal year July 1, 1943 to June 30, 1944, and recommendations of sums to be assessed, including statutory requirements.

ESTIMATED EXPENDITURES

Salaries of district officers	\$ 200 00	
Superintendent's excess salary	600 00	
Truant officer and school census	50 00	
Expenses of administration	600 00	
Teachers' salaries	18,000 00	
Textbooks	500 00	
Scholars' supplies	1,000 00	
Flags and appurtenances	10 00	
Other expenses of instruction	275 00	
Janitor service	1,450 00	
Fuel	1,000 00	
Water, light, janitor's supplies	600 00	
Minor repairs and expenses	800 00	
Medical inspection and health supervision	625 00	
Transportation of pupils	3,300 00	
Other special activities	75 00	
Insurance	175 00	
New equipment	550 00	
Per capita tax (\$2 per pupil)	656 00	
Total estimated cost of operation of schools	-----	\$30,466 00

ESTIMATED REVENUE

From Sources Other Than Taxation:

Federal Aid	\$200 00
Dog tax	300 00
Howard & Spaulding Funds	600 00

High school tuition	400 00	
Other receipts	100 00	
Estimated cash on hand		
June 30, 1943	400 00	
	-----	\$2,000 00
Total Assessment for School District		-----
Less any allotment of State Aid		\$28,466 00

JULIA M. KEY,
District Treasurer.

REPORT OF SCHOOL BOARD

Object and Scope

The object of this report is to acquaint the voters of the District with the doings, plans, and policies of its elected representatives during the past year. It covers a description of present plans and policies, a resume of events of the year, a brief description of finances, an outline of proposed alterations in the program, and the Board's recommendations to the voters for action on their part.

Present Plans and Policies

The following account describes not only the present policies of the Board but also how they differ in any way with those of previous years. The most important of the duties of the Board, from a money standpoint at least, is the election of the teachers. This in turn is bound up closely with the program of studies and activities and the Board spends much of its time on these matters. The requirements of standard schools are of course put forth definitely by the State Department of Education, but within these there is a wide latitude in choice of programs, and it is up to the local Board to decide the optimum arrangement, taking into consideration the character of the town, the needs of the pupils, and the money available.

Practically, the program of the present school year is the same as last year's, with the exception that the musical work is curtailed and a part-time shop course instituted, the latter having been abandoned for lack of a qualified teacher. It was decided also, in view of the fact that qualified instructors were at the time rare and costly, to abandon any attempts at a formal athletic program, but instead to see what could be done on a voluntary basis.

At the end of the last school year we were faced with a number of changes in the teaching staff, the

most important of which was the position of headmaster. For the first time in many years, we happen to have a man whose preparation has been in the social sciences and the study of people, rather than the usual fields of mathematics and physical sciences. It was thought that such a headmaster would be able to handle the school discipline and administration so that the remaining teachers could pay more attention to their actual teaching and attain better results. A change in another and perhaps fully as important position was in that of first grade teacher. She has the responsibility of adjusting the children under her supervision to their new school life, and the Board thought that the present teacher, Miss Ruth Jenisch of Keene, would do very well in this regard.

Realizing that considerable pressure would be brought on our teachers from other schools seeking replacements, the Board has this year adopted a much firmer policy than heretofore in regard to releases from contracts. We realize that teachers should be given fair opportunity to better themselves, but having a teacher leave in the middle of the school year disrupts the schedule and works a considerable hardship on the pupils, who undoubtedly lose some ground in their work before getting accustomed to the new teacher. It is chiefly this latter consideration which prompts our present policy. We have continued to give releases when we thought them justified for medical reasons, or in cases of personal family adjustments brought about by changes in the armed forces.

The present shop course is a somewhat new idea. The teacher, Mr. Remick, is regularly employed locally and handles the work part-time. There is some doubt as to whether the arrangement can be continued indefinitely, but it is working out well from the school standpoint. Normally we would have abandoned the project, on account of our being unable to obtain a

regular teacher for this work, but we felt that something should be done in response to the strong enthusiasm shown by the voters in response to the questionnaires given out at last year's District meeting.

Another change in school operation, brought about indirectly by wartime changes in time and operation of school buses, was the reduction in periods from seven daily to six. It was necessary to hire another teacher to take care of the changes in schedule, but that in turn made it possible to restore part at least of the work in physical education, and the net benefits involved were thought to outweigh the expense.

The School Board itself has adopted a somewhat new idea in a "division of labor" program in which each member has certain phases of the work under his or her personal direction and reports at each meeting the progress of the work. In this way the handling of much routine work has been speeded up and the time of the meetings has been saved for discussion of problems of greater interest to the Board as a whole. Under this set-up Mr. Frye, for instance, has charge of the buildings and operation of the school plant; Mrs. Pierce has had sole charge of the school lunch program. Mr. Abbott assumed the duties of Secretary after the resignation of Mr. Charles Abbot and has been able to follow closely the development of the yearly finances and monthly reports show the amounts spent each month, the totals spent for the year, and the unexpended balance against each appropriation.

At the outset of the year meetings were held on Monday afternoons to enable any person to bring in matters for discussion with the Board. They were also held somewhat more frequently than necessary, to allow time for this. Thus far we have had very few visits, and now the schedule of meetings calls for one meeting on the second Monday of each month, with special meetings in between if necessary. These com-

mence at 2:30 in the afternoon and are still open for any citizen to come in and talk to the Board.

Resume of Events of the Year

The first meetings of the new Board were for the purpose of organizing and outlining the work of the coming year. The program of studies was discussed with Mr. Leavitt of the State Department of Education and the work of lining up the new staff was commenced. This took considerable time and continued up to a week or two after school opened.

Shortly before the opening of school Mr. Charles Abbot resigned from the School Board to take a position as teacher of mathematics and sciences. The Board takes this opportunity to express its appreciation for his efforts while he was a member. The remaining members of the Board chose Mrs. E. M. Pierce, a former member, to fill out his unexpired term, which was to end at the coming District meeting. Mr. C. Maurice Gray of Hopkinton High School was chosen as headmaster; Miss V. Lillian Politella replaced Miss Pearle Grant as teacher of English and languages; Miss Gertrude Clukay, former Peterboro basketball star, came on to handle some of the Junior High work and the girls' physical education. The shop work was begun under Mr. P. J. Potter of Milford, but due to changes in war work he had to give up after a few weeks and Mr. Harold S. Remick took over in his place under an emergency certificate from the State Department. Mr. Oxman, commercial teacher, left in the middle of the school year without a release, to take a position in Malden and was replaced by Miss Margaret Sheldrick of Wilton.

Mrs. Elma Kittredge, originally hired as sixth grade teacher, left under release before school opened to join her husband in the armed forces and her place was taken by Miss Doris S. Forbes. Miss Esther Thornton, second grade teacher, left during the school

year without notice and without release and was replaced by Mrs. Evelyn S. Whiting. Miss Jenisch, the new first grade teacher this year, has already been mentioned.

A word about teachers and contracts: Presumably if a teacher breaks his or her contract and leaves, we can find a replacement at some price and would have a claim against the teacher for the actual money damage. Practically, however, we do not know that this has ever been done and the recourse left to the Board is to report the facts to the State Department of Education. On request from the Board they will revoke the teacher's credentials and the teacher would thenceforth be barred from public teaching positions in New Hampshire. Naturally the Board must take careful thought before invoking such drastic action and in but one case this year has it been considered justifiable.

Other topics, other than routine matters and those previously mentioned, which have come up for discussion during the year are: transportation; school lunches; revamping the school program to take care of possible pre-induction training; misbehavior of pupils off the school grounds bringing reflection on the school; tuitions and tuition pupils. These will be explained briefly.

Transportation is at present a live issue. We are now transporting more pupils than the law requires, and it is a fair possibility that the ODT may order a reduction in our present number transported. This would work a special hardship in the case of High School pupils who would be compelled to walk over four miles to school, and some pupils in the first and second grades walking nearly two miles. At present we have heard nothing beyond requests to take surveys of the present system, but we wish the voters to know that there is an issue which may come to a head at any time.

The school lunch program was adopted at the instigation of the Parent-Teachers Association and judging from the attendance is very satisfactory. Much of the work is at present voluntary and it is hoped that means will be found to continue the program. It has a financial aspect which will be discussed later.

Plans for pre-induction training of boys have been suggested by the State Department. They are not thought practicable for Wilton High School because there are very few boys who will reach induction age next year, and the work would require extra staff to carry out properly. We think that the time would be better given to fundamentals in the standard subject matter, so that the boys would have better groundwork for specialized training after induction. It is possible for some of the material to be taught in connection with the regular work, as for instance in mathematics.

In regard to misbehavior off the school grounds, the School authorities realize that they have no direct control over the pupils at such times. However, it sets a bad example to other pupils and encourages similar behavior in school. The Board has tried to control this indirectly by setting up such rules for participation in extra-curricula activities like athletics, that pupils would look more closely to their actions.

In recent years the regulations for billing and collecting of tuitions have not been very definite; consequently we have not received all the income expected, and have sometimes suffered embarrassment due to bills being paid late. The procedure has been revised and is expected to give much better results.

It is perhaps too early to say definitely how well our plans, as announced earlier in this report, have materialized, but we can say that in general they have borne fruit and reactions have been favorable. We have noticed one thing in connection with music. We did not give credit for Glee Club this year, and there

has been a marked falling off in enrollment. This leads us to believe that some of these pupils have enrolled, not from a great desire to sing, but to take what goes by the name of "snap course" and gives from its very nature ample opportunity for shirking. Those pupils detract from the progress of the interested ones and show a tendency which we believe should be combatted either by stiffening the work or else permitting it to continue only as voluntary extra-curricula activity.

The athletic program has gone forward under difficulties but has exceeded expectations. Many thanks are due to the persons who volunteered their time to help with this. The boys and girls have had their basketball and plans for the balance of the year are in the making.

During the year a considerable number of boys have come of draft age and enlisted, dropping the enrollment in the High School from approximately 95 down to 73. Next year we expect not over six additional losses in this direction, while the incoming Freshman class will more than offset the combined loss due to the draft and graduation, so that the enrollment will be about 80 pupils. This has been a wartime change in operation and while it has not upset the program to any great extent, it shows the possibilities of a general speeding up of the tempo of changes and these must be followed closely. Experience has shown that too much attention cannot be paid to keeping fully informed of changes in laws and regulations, in order to avoid embarrassing errors both of omission and commission.

School Finances

The budget for the school year 1943-1944 is printed elsewhere in the District report. It runs generally true to form, some of the items being fixed by law or custom and others dictated by general policy of the

care and maintenance of the school plant. The largest single item is of course teachers' salaries and this is worthy of some discussion.

This year we have adopted a somewhat different presentation of the budget to the voters. Instead of making out a budget and then inviting discussion of various items of school operation which would affect that budget, we made up a plan for a basic program of education, calling for a certain staff and expenditure of money. Any additions to that program were to be put in the form of appropriations and set up as separate articles in the warrant. Voting for or against these appropriations would be taken as an expression of the desire of the voters for the subjects covered. However, under the new proposed budget law, which may be passed before school meeting, each item of the budget must provide for not less than 90 per cent of any possible appropriation for that item. Therefore, the budget as printed is made up with that in mind and if any of the articles in the warrant are voted down, the result will be a reduction in the expenditure as shown in the budget.

In the budget we have allowed for raises in pay of individual members of the staff who are with us next year. This is contrary to past general policy in which each position had a maximum and new teachers started at a lower figure and were given raises until the maximum was reached. At that time or later the teacher would generally leave for a better paid position and be replaced. That policy could be continued except that it is becoming increasingly difficult to obtain replacements and we feel that "raising our sights" is necessary to insure a full staff. Some smaller schools have been forced to close or get along with a much reduced program on account of this difficulty.

It would seem also that with the smaller number of pupils expected in the High School we should be able to get along with a smaller staff there. However,

the size of the staff is governed not by the pupil load but rather the teaching load—it is no more difficult for a teacher to handle a class of 25 pupils than a class of 10 pupils. But it is twice the work for her to teach two subjects instead of one. Therefore the only way to reduce the staff is by simplification of the program and elimination of some of the choices of subjects offered pupils. In the warrant we have indicated the possibilities of such simplification and give the voters the opportunity to express their opinion in a practical way.

We wish to call to your attention the fact that the last of the school debt is now paid and the District will be saved henceforth an annual payment of \$1035. In spite of this, the complete program as shown on the budget calls for an assessment slightly greater than last year's. Part of this will be due to the raises in teachers' salaries, mentioned previously, part to certain new items pertaining to insurance and school lunches, and part to the fact that we may get no State Aid next year. The State Department has expressed doubt in this matter so we felt that it would be safer not to allow for it.

Last year we spent about \$500 over and above the allotment for new equipment in the March, 1942, budget, to outfit the shop. This is an expense we do not expect again until such time as it becomes expedient to expand the facilities. Next year will see also the final payment on the stoker and will further relieve the District to the extent of about \$450 annually. Some of the "bugs" have been removed from its operation and it is expected to show the economies originally planned for it.

The school lunch program thus far has carried on without any appropriation. A charge of ten cents per pupil has been made and this has been used to pay the salary of a cook and to purchase minor supplies. The food has come about half from Surplus Commod-

ities and there is considerable possibility that such a source will be unavailable next year. The suggested appropriation is to provide funds to continue the program if the citizens so desire it.

Proposed Alterations in the Program

We have mentioned in the preceding section a possible simplification of the school program. According to State Department regulations sixteen units of work, each unit consisting of five periods per week of class work, are required for graduation from high school. This means a total of twenty periods per week for each of the four classes or eighty periods in all. Since teaching loads of 25 or more periods per week per teacher are possible, theoretically three teachers could handle the work provided the classes were not too large. However, it is difficult to find three teachers with sufficiently wide variety of qualifications to cover the ground, although it has been done in very small high schools. It is also possible where the size of the classes permit, to combine them, teaching subjects in alternate years. An example would be combining Juniors and Seniors, teaching Physics to both in one year and Chemistry the following. This practice is followed at Wilton and tends to reduce the teaching load.

This year's program involves the equivalent of $7\frac{1}{2}$ teachers including the headmaster and a teacher each for the seventh and eighth grades. The half teacher represents the part-time shop work. For the next year the Superintendent has outlined a program which could be handled by the headmaster and four other teachers. To this we have added the Domestic Arts and Shop as taught at present, feeling that these are necessary especially in the Junior High, which would otherwise be without an acceptable substitute. It is this program we offer to the voters, with an opportunity to add items if they desire. Our plans for the

makeup of the staff for next year will depend on the action taken on these items.

One other item of importance has come to our attention and on it we invite discussion. It is a proposal that we postpone the opening of school in the fall until after the early apple picking season. This year many pupils voluntarily gave up class instruction and lost ground which teachers admitted they could not readily regain, to help out local apple growers. This we feel should not be allowed to happen again and we shall probably call for a vote of opinion from the voters at the meeting.

Recommendations to the Voters

First of all we recommend serious consideration and discussion of the school program by parents. Without knowledge of their desires in this matter we must rely on our own judgment aided by such guides as pupils' desires and suggestions from the State Department of Education. The former is not too reliable—many children if given a free choice would not go to school at all! Too often also they tend toward so-called "snap" courses those which give credit but do not involve the time or effort that others do. The suggestions from the State are excellent but they often call for the addition of some new course without eliminating another to make room for it. This finally involves the addition of extra staff and expense to the District.

A High School can offer only the bare minimum sixteen units for graduation and still be a standard high school. Within certain limits set by the State Department the curriculum may specialize in music, college preparation, commercial, or practical arts. When more than a single choice of curriculum is offered, the total number of teaching units goes up and more teachers are involved, causing either greater expense or else lower salaries for less experienced and less competent

teachers. The balance between expense, teacher quality and choice of subject matter offered for the greatest benefit to all pupils is a responsibility squarely up to the local School Board and suggestions from a substantial number of interested parents would be a most helpful guide.

Another recommendation is in the matter of complaints from the public. We know there are many of these, for we get them by rumor and hearsay, yet seldom do they come to our official attention. Too often a complaint arises and is poured into any sympathetic ear except an official one. Sometime it spreads and assumes the proportions of a flood involving the entire town, still without notice from the complainant being received by the Board. This gives rise to a great deal of hard feeling which could be in large part avoided by more prompt action in the beginning. We recommend strongly that any person with a complaint submit the same in writing, over his signature, to the Board and we can then take decisive action and follow the complaint to its source. It is possible that the matter would be out of the Board's jurisdiction and if so, it would be promptly so stated. We also request that when making complaints or suggestions, the person doing so have the facts clearly and truthfully stated, so as to preclude the possibility of embarrassing denials when the case is investigated.

In conclusion we urge closer contact between the citizens and the school. They should not let this contact end with the choosing of a school board member at the annual meeting, or repeating some hearsay gossip about school activities. We suggest they come to the board meetings or to the school building and see things for themselves. If one hears that a teacher annoys the pupils by yelling at them, let him (or her) instead of passing it on to the next person, come and sit in on a class. Any citizen may visit the school or a class at any time and such visits often put pupils and

teachers alike on their mettle, it being something out of the ordinary. To do this would bring about better understanding all around and result in an ultimate benefit to the children, who in the final analysis are the prime consideration in the operation of the school system.

SCHOOL BOARD OF WILTON, N. H.
WHITNEY M. FRYE, Chairman
JAMES D. ABBOTT, Secretary
ELIZABETH M. PIERCE.

REPORT OF SCHOOL SUPERINTENDENT

To the School Board and Citizens of Wilton:

The general functions of supervision are being maintained as completely as possible and substantially as indicated in previous reports. It is difficult to maintain as complete a program as formerly, because of the many demands upon the superintendent's time and energies arising out of the war emergency. The most important of these during the past year have had to do with the various rationing programs, requiring the organization of the schools to take care of the registration for sugar rationing, gasoline rationing, fuel oil rationing; the "Food for Victory Program," including organizing for high school pupils to assist farmers in harvesting apples, and attempting to organize classes for out-of-school youth and adults; handling the details of organizing and reporting on the use of surplus commodities to supplement school lunches; the details of organizing and reporting the "Penny Milk Program" in some schools; the necessity for a complete review of transportation plans for all schools; the preparations now being made for the registration of War Ration Book II.

Our Schools and the War

With the above brief reference to the ordinary routine of my work, I shall devote the rest of this report to a discussion of some aspects of the adaptation of education to the necessities of the war. I shall do this at the risk of seeming to deal with generalities rather than specific conclusions and plans. Working out of procedures must be determined by the school board, superintendent, and staff, with such expert advice from other sources as may be available.

The New England Association of School Superintendents, in its November 1942 statement of policies, concludes: "Education as usual is as obsolete as busi-

ness as usual. During the crisis the American school must continue to be an integral part of the machinery of war, a center of training and community service, a source of information and inspiration, a basis for building a sound morale and a noble peace.

"There shall be one test for all thinking and planning, all our policy and program: 'Will it help to win the war?'"

The U. S. Office of Education, in its publication "Education for Victory," January 1, 1943, begins with this: "There are some things which the American people must give up to make our war effort more effective. There are other things which we must retain and strengthen if our war sacrifices are to be justified. We must retain and strengthen our public-school program. To fail here will cost us bitterly in terms of juvenile delinquency now and in the defeat of our high hopes for tomorrow.

"Twenty-seven million world citizens of the decade beginning in 1950 are being prepared in our public schools now for the world that is being shaped with so much 'toil and blood and tears.' How futile our every war effort if these citizens of tomorrow are not fitted for their places!"

There is much discussion in the current educational magazines as well as in the general magazines and newspapers, and quite naturally many conflicting opinions are being expressed.

The Educational Policies Commission appointed by the National Education Association of the United States, in a bulletin entitled "What the Schools Should Teach in War Time," expresses probably the consensus of opinion of the ablest leaders in education. This bulletin recognizes two groups: (1) The older students, including most of those now in high school, who are almost certain to be directly involved in the war as fighters or as workers in essential industries and services; and (2) the younger students now in the elemen-

tary schools, who are not likely to become so directly and completely involved.

The bulletin suggests that "the younger group is to be prepared for service as adult citizens in a world which we are determined to make an essentially peaceful and democratic one." And it suggests that "for the older group the problems are markedly different. A few of them must be selected for extended training in the professions which require a longer period of preparation. For the great majority, however, we are now concerned with developing their fitness for service in the war industries and for fighting survival in battle. Long-range values for them must be subordinated to the life-and-death needs of today and tomorrow."

In the elementary school, then, we shall continue to lay a sound foundation of skills and habits of accuracy in the fundamentals; maintain the highest possible feeling of security and avoid undue excitement over the events of the war and especially counteract feelings of fear or hatred; promote good health; encourage community service; see that the teaching of Geography emphasizes the interdependence and relationship of peoples and nations; teach History as a means of developing a clearer understanding of the ideals of freedom and equality and the deepest possible loyalty to them; and enrich the artistic, literary and musical experiences of the children as essential elements of culture.

In the program of education provided in the high schools, however, we shall have to dispense with many cherished and valuable educational activities, just as we as individuals are going without some things that we have thought were necessities.

Vocational guidance must receive more attention than it has hitherto, and it should include the entire high school enrollment and provide training that will lead more directly to specific employment or specific

plans for further education. Pre-induction training ought to be a required part of the education of every able-bodied boy before he reaches his eighteenth birthday. The Army Service of Supply has stated that 630 out of every 1000 men inducted are assigned to duties requiring specialized training. It is desirable that some of this specialized training be provided in the high schools, and technical manuals for such courses are available. The same may be said of special training for the Navy and for Aviation. In order to determine what specific pre-induction training any individual should take, the person in charge of guidance needs to know the aptitudes of the individual in relation to the elements of skill and knowledge required in each of the specialized lines of training.

Since much of this specialized training includes Science and Mathematics, the student body should be thoroughly searched for those who have interests and aptitudes in these subjects; the ablest of these should be given rigorous training which will prepare them for later specialization in Mathematics and Science at the college level, and the others should be trained in specific skills and knowledge related to the requirements of the armed services and war industries.

Health instruction needs to be emphasized in high school with thorough instruction in first aid, hygiene, nutrition, sanitation, and in the use of the community and private health services. Health instruction should be correlated with physical education, which should provide vigorous exercises and activities that will develop strength, skill, and stamina. Every able-bodied boy and girl should have at least an hour of such physical training daily.

Courses in Home Economics need to be adjusted to the special responsibility placed on home-makers by the war, including special emphasis on such topics as the family budget, rising living costs, war savings, conservation and repairing of home equipment, nutri-

tion with special reference to rationed foods and substitutes, economy in the making and repairing of clothing, home nursing, and the care of small children.

Character education both in school and outside of school deserves more serious attention in both peace time and war time. Activities connected with the war have a tendency to promote such valuable qualities as valor, industry, thrift, self sacrifice, and devotion to the common good. War endangers some of our cherished ethical, religious, and spiritual values; sentiments of mercy, tolerance, and goodwill may give way to malice, revenge, and hate. It is the duty of teachers, in cooperation with the home and church, to cultivate the character-building traits and counteract the character-destroying traits.

Work-experience should become an integral part of the education of boys and girls of high school age. This fact has been recognized by some educators even before the war. The demands for temporary work in agricultural and other occupations in school time give particular point to the suggestion that high schools should be kept open and active the year 'round, the students being subject to assignment to community service and industrial or farming work whenever an emergency requires their services. Such assignment could be regarded as not fundamentally different from assignment to a class in English, or Mathematics or any other school activity. Such a plan would make it possible for students to complete the four years' work in three years in cases where that is deemed necessary or advisable. The programs of organized sports, clubs, and other activities would then be continuous throughout the year and take care of the recreational problems of the summer vacation. Some provision would have to be made for those who depend upon summer vacation employment for their own maintenance, and some adjustment of existing child labor laws would probably have to be made.

These are some of the thoughts in the minds of men and women who are conscious of the changing scene in American life and are seeking to make education better serve the needs of those who are to be the citizens of tomorrow. Ever since public high schools began to replace the private academies people have very generally thought of them as means of preparing boys and girls for college and for the professions. It has been a natural desire of parents that their children should enjoy what they believed to be a higher status in society. This tradition has held as a strong guiding principle while the high school enrollment has increased to include nearly all boys and girls of high school age, in spite of the obvious fact that only a few can find employment in the professions and so-called white collar jobs. As people have come to some realization of this, some have urged that the high school should be a vocational training institution and many schools have undertaken to teach the skills that would equip its pupils to get specific kinds of jobs. But advancing technology produces rapid changes in the types of specific skills required, and youth needs to be taught how to adapt itself to change. A way must be found to adapt education to meet the demands for occupational adjustment and provide a type of work experience that will make the transition from school to work most successful and effective. And a way must also be found, an effective way, of establishing in the minds of youth a realization that the privileges of a democratic society must be earned, not taken for granted, and that they must be paid for by giving a full measure of devotion and ability. Considerations like these are setting the objectives for the schools of the future.

Respectfully submitted,

VERNON S. AMES,

Superintendent of Schools.

February 15, 1943.

REPORT OF HEADMASTER

It is the wish of the writer to submit to the citizens of Wilton a report based on certain newer but basic concepts of education rather than to emphasize statistics. Our educational systems are undergoing a period of reorganization as to content, and will always be subject to the external forces affecting all things. There remain, however, certain basic concepts throughout.

It is trite to say that schools constitute one of the biggest business organizations in the world. All of us are aware of this at one or two times a year but it should be ever with us. A school should have the atmosphere of an efficiently run office where the seriousness of purpose of all concerned cannot be questioned. In order to accomplish this there are certain traits of character which must be in process of formation in all pupils. Among these are the traits of dependability, honesty, punctuality, co-operativeness, seriousness of purpose, ability to achieve desired results, the ability to take and give orders, and individual responsibility. Life demands these qualities and we are hearing much of them in time of war. It is not reasonable to expect a pupil who is absent from school for light and transient reasons to be "on the job" every day after he leaves school. Likewise it is not reasonable to expect that person to be given such an opportunity forever. There are many similar ways by which a teacher can tell the motives of pupils he sees daily. The time has arrived when these traits are not theory.

Increasingly, colleges, trade schools, businesses, and right now, the armed services in search of commissioned officers, are asking us for what we call "the whole personality." Some colleges go so far as to insist on personal interviews by boards of alumni before final acceptance. All commissioned officers must prove themselves after selection before earning their

commissions. Much work is being done by paid workers in the field of personal investigation for many and varied types of work. The word of a teacher who has known a pupil for a period of years is not taken lightly by such people; the development of traits, good or bad, should not be taken lightly by the individual.

One special ability demanded in all times has been that of individual initiative. Pupils are given many opportunities to develop this within each subject. Extra-curricular activities such as basketball, other games, the keeping of records, organizing for carnival, selling tickets, being stage manager and similar activities often show a person's ability in this trait and his ability to organize and direct. Pupils should do more of this kind of work. They will be given much guidance and as little direct supervision as needed. Such a group might well keep a skating rink cleared during the winter months.

Another trait sometimes asked for is that of "intellectual curiosity," that desire to do a bit more than is required, to accept a teacher's challenge, to interest oneself in something worthwhile and to carry it through to a logical end. This type of ability as found in other than intellectual fields accounts for the special banners flying over defense factories and on which our opponents did not count. We find this quality best displayed in our teams in interscholastic competition and is, in part, a most valid reason for their maintenance. In spite of the difficulties we get into, and they are sometimes great, the values are greater; the discontinuance of interscholastic sports over a period of years will be materially felt both in the field of public morale and on the field of battle. There is a definite need, however, of greater development of this intellectual "fight," for there are as great challenges in "this game" as there are in the fields of sport. We need both.

The armed services have likewise demanded a toughening of our mental fibre as well as the physical.

There has been, and is, a great demand for young men who can handle the "tough courses" of algebra, plane and solid geometry, trigonometry, the understanding of the principles of physics, and the manipulation of physical formulas. These courses demand good ability, an understanding of basic principles, and complete mastery of detail. A navigator of a flying fortress must be "on the beam" all the time, all the way to his destination. A mere approximation to the objective is not enough. These qualities are closely allied to the previously mentioned intellectual curiosity and are not too plentiful.

In spite of the increasing demands for changes in our programs of study we must not lose sight of the fact that all citizens in a democracy need a basic understanding of our forms of government and how they function. We need to keep our study of history up-to-date in all respects and must continually revert to the motives of the leaders of the great nations. This again emphasizes the need of greater understanding of the human element in modern life. Failure to properly diagnose leaders of foreign nations has resulted in the accomplishment by them of too many "impossibles." There is also a grave danger of too many specialists. Specialists without the proper perspective in world affairs might well make a reality of that mythical machine which destroyed its creator. The post war period is going to demand men and women with a type of vision which can not be developed by complete emphasis in the technical fields of education or work. Most of us look with confidence to the successful completion of this war. There are few of us who do not shudder at the thought of possible post war developments.

In summary it may be said that we can not have schools "as usual," do not expect to, and do not want to, during a war period. If we can cling to the fundamentals of education, the development of the whole

personality of every pupil, we do not need to worry about anything else. The continuance of such a school is our primary aim for Wilton High School.

Respectfully submitted,
C. MAURICE GRAY.

REPORT OF SCHOOL NURSE 1941-1942

Physical Examinations by Dr. J. E. Powers and Dr. C. E. Rice—Nov. 1942. Follow up by the Nurse.

- 130 Boys, Grades 1 to 12, examined by Dr. Powers
 66 were found to be without defects
 8 underweight—8 having penny milk—6 hot school lunches
 7 Cardiacs—2 new since November examination
 42 Defective Teeth—88 without defect
 21 Defective Tonsils—4 corrected
 2 Impetigo—excluded—corrected
 1 Pediculosis—excluded—corrected
 2 Poor Posture
- 138 Girls, Grades 1 to 12 examined by Dr. Rice
 58 were found to be without defects
 9 Underweight—5 having penny milk—5 hot school lunches
 2 Cardiacs—old history
 59 Defective Teeth—82 without defect
 1 Defective Breathing—under treatment
 1 Post Nasal Discharge—under treatment
 1 Enlarged Thyroid—under treatment
 1 Chicken Pox

In December 109 pupils had hearing tests with audiometer; 38 were retested one or more times. Three were found to have defective hearing. The parents of these three were cooperative. Each pupil visited his

family doctor. One had excessive wax removed, result, hearing improvement. One was advised probably temporary hearing loss from long continued cold. The third was not so fortunate.

Vision tests, Grade 3 to 7, December; 16 children have defective vision. Fourteen of these are wearing corrective glasses; 2 with small defect 20/30 uncorrected.

January Refresher Red Cross First Aid: Boys, 4 hours. Red Cross Home Nursing Classes: Girls, Grades 11 and 12, 6 hours, to continue in February and March.

Other activities during school year:

May and June 1942, High School Classes in Practical Nursing Arts

2 children to Behavior Clinic for guidance

1 group Dr. Provost, Manchester—glasses

9 children County Hospital—Tonsilectomies

1 Pre-school Clinic—20 children, 14 toxoids.

Respectfully submitted,

EDNA J. GILBERT, R. N.
